

Zoom Webinar

Technology and Sustainability "RED" Talks - Real Estate & Development

Similar to the well-known TED Talks, this program will feature six speakers with innovative topics that are, or will have, the potential to change and grow the retail real estate industry. As the industry evolves, we as retail real estate professionals need to stay abreast of new trends and technologies that will lead our industry in different directions. Join us as we hear about a few topics that will impact our industry in 2020!

The following technology and sustainability topics will be discussed:

- Sustainable site design trends, challenges and solutions
- 3D modeling in real estate marketing and architecture
- Advancements in technology and going green at properties
- Understanding eGaming, facility design and the experiential trend potential
- Waste management and the state of recycling
- Solar energy and its impact on the retail industry
